Barley Areas in Drought

Reflects November 6, 2012
U.S. Drought Monitor data

Approximately 62% of barley production is within an area experiencing drought.

Major and minor agricultural areas are delineated using NASS 2012 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.
### Percent of Barley Located in Drought

**November 6, 2012**

Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2012 Census of Agriculture data.
