Barley Areas in Drought

Reflects April 1, 2014
U.S. Drought Monitor data

Approximately 21% of barley production is within an area experiencing drought.

Legend:
- Drought Area
- Major Crop Area
- Minor Crop Area

Notes:
Major and minor agricultural areas are delineated using NASS 2012 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.
Percent of Barley Located in Drought
April 1, 2014

Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2012 Census of Agriculture data.
Percent of United States Barley Located in Drought

Drought percentages are approximated using the U.S. Drought Monitor product.
Approximately 31% of corn production is within an area experiencing drought.

Major and minor agricultural areas are delineated using NASS 2012 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.
Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2012 Census of Agriculture data.
Percent of United States Corn Located in Drought

Drought percentages are approximated using the U.S. Drought Monitor product.
Approximately 34% of cotton production is within an area experiencing drought.
Percent of Cotton Located in Drought
April 1, 2014

Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2012 Census of Agriculture data.
Drought percentages are approximated using the U.S. Drought Monitor product.
Peanut Areas in Drought

Reflects April 1, 2014
U.S. Drought Monitor data

Approximately 9% of peanut production is within an area experiencing drought.

Major and minor agricultural areas are delineated using NASS 2012 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.
Percent of Peanuts Located in Drought
April 1, 2014

Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2012 Census of Agriculture data.
Drought percentages are approximated using the U.S. Drought Monitor product.
Rice Areas in Drought

Reflects April 1, 2014
U.S. Drought Monitor data

Approximately 26% of rice production is within an area experiencing drought.

Major and minor agricultural areas are delineated using NASS 2012 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.
