Hog Areas in Drought

Reflects September 1, 2015
U.S. Drought Monitor data

Approximately 5% of the hog inventory is within an area experiencing drought.

Major and minor agricultural areas are delineated using NASS 2017 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.
Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2017 Census of Agriculture data.
Percent of United States Hogs Located in Drought

Drought percentages are approximated using the U.S. Drought Monitor product.
Approximately 17% of the cattle inventory is within an area experiencing drought.
Percent of Cattle Located in Drought
September 1, 2015

Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2017 Census of Agriculture data.
Percent of United States Cattle Located in Drought

Drought percentages are approximated using the U.S. Drought Monitor product.
Milk Cow Areas in Drought

Reflects September 1, 2015
U.S. Drought Monitor data

Approximately 35% of the milk cow inventory is within an area experiencing drought.

Major and minor agricultural areas are delineated using NASS 2017 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.
Drought percentages are approximated using the U.S. Drought Monitor product.
Approximately 33% of the sheep inventory is within an area experiencing drought.
Percent of Sheep Located in Drought
