Barley Areas in Drought

Reflects July 31, 2018
U.S. Drought Monitor data

Approximately 13% of barley production is within an area experiencing drought.
Percent of Barley Located in Drought
July 31, 2018

Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2017 Census of Agriculture data.

State contributions to national production (percentages in parentheses) are derived from NASS 2017 Census of Agriculture data.
Percent of United States Barley Located in Drought

Drought percentages are approximated using the U.S. Drought Monitor product.
Corn Areas in Drought

Reflects July 31, 2018
U.S. Drought Monitor data

Approximately 11% of corn production is within an area experiencing drought.

Legend:
- Drought Area
- Major Crop Area
- Minor Crop Area

Notes:
Major and minor agricultural areas are delineated using NASS 2017 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.

</table>

Drought percentages are approximated using the U.S. Drought Monitor product.
Cotton Areas in Drought

Reflects July 31, 2018
U.S. Drought Monitor data

Approximately 44% of cotton production is within an area experiencing drought.

Major and minor agricultural areas are delineated using NASS 2017 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.
Percent of Cotton Located in Drought
July 31, 2018

Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2017 Census of Agriculture data.
Percent of United States Cotton Located in Drought

Drought percentages are approximated using the U.S. Drought Monitor product.
Approximately **12%** of peanut production is within an area experiencing drought.
Percent of Peanuts Located in Drought
July 31, 2018

State contributions to national production (percentages in parentheses) are derived from NASS 2017 Census of Agriculture data.
Percent of United States Peanuts Located in Drought

Drought percentages are approximated using the U.S. Drought Monitor product.
Approximately 45% of rice production is within an area experiencing drought.

Major and minor agricultural areas are delineated using NASS 2017 Census of Agriculture data. Drought areas are identified using the U.S. Drought Monitor product.
Drought percentages are approximated using the U.S. Drought Monitor product. State contributions to national production (percentages in parentheses) are derived from NASS 2017 Census of Agriculture data.
Percent of United States Rice Located in Drought

Drought percentages are approximated using the U.S. Drought Monitor product.
Sorghum Areas in Drought

Reflects July 31, 2018
U.S. Drought Monitor data

Approximately 27% of sorghum production is within an area experiencing drought.
